

## **CHO'S LIBERTY OR CHO'S DEATH – New book explains how inequality can influence one to kill others.**

**Salt Lake City, Utah, USA – April 24, 2007** Worldwide media coverage of the shootings at Virginia Tech continue to focus on the devastating actions of Cho Seung-Hui without ever offering up a specific answer as to **why** he (in his own words) “*had to*” do it.

Now available is a powerful new book that can help us understand how a person can reach a point of hopelessness and depression that would cause such actions: **666 The Mark of America – Seat of the Beast.**

“*Most importantly though,*” Monica Smith, a reader of the book states, “*the book gives the answer to eliminating this desperation that is being seen not only in America, but all throughout the world.*”

MSNBC’s website, referring to the manifesto left by Cho, states, “*...he mentions...Christianity, and...talks at length about his hatred of the wealthy.*”

Readers of the book will discover that this problem of inequality, brought on by both religion and the value of money, has been the cause of human misery and the downfall of many great societies throughout history. Inequity is so common in our world that it ultimately ended the hope in one young man, and influenced him to take his own life and the lives of many others. As the world experiences similar daily events in Iraq, likewise, Cho became an “American Suicide Bomber.”

Sadly, Cho and his victims are the latest casualties of the ever-increasing division caused by the leaders and the elite classes at the expense of the poor and oppressed. However, there is hope. There is a way to eliminate injustice in our society, and the solution is shown powerfully and simply in **666 Mark of America.**

The book’s author, Christopher, said of this American massacre and those happening daily in Iraq and other regions of the world, “*...if change isn’t made, one day the violence in America will become so commonplace that ...The American Dream of ‘freedom’ will dwindle into suspicion, distrust, false arrests, mass hysteria and fear, as the hearts and souls of humankind grow colder. ...[But] a simple look at the very thing that has caused all our problems can heal us. ...ironically, Cho’s last comments were, ‘right on the money’!*”
